

Participation is Simple In Two Easy Steps

1 Inventory the pesticides you wish to dispose of. List the name of the product (*use "unknown" if you do not know*), include the amount and state of product. Use the following as an example:

PRODUCT	AMOUNT	STATE
chlordane	2 gallons	liquid
unknown	10 pounds	dust

2 Contact the Nevada Department of Agriculture for details about upcoming collection and disposal events in your area.

Reno (775) 688-1182

Las Vegas (702) 486-4690

Winnemucca (775) 623-6501

Elko (775) 738-8076

No Cost to Pesticide Users

Waste pesticide disposal is funded entirely by fees paid by manufacturers. Pesticide applicators such as farmers, ranchers, licensed pest control operators, and other pesticide users participate in this program at no cost.

Safely Dispose of

WASTE PESTICIDES

*Unuseable and unwanted
pesticides are collected and
disposed of*

FREE OF CHARGE

Prevent Environmental Contamination

Improper disposal of waste pesticides may result in surface water pollution or contamination of Nevada's groundwater supply. Nevada Department of Agriculture's pesticide waste disposal program gives pesticide users the opportunity to properly discard unwanted pesticide products. This is a safe way to prevent contamination of Nevada's ground or surface waters.

Eliminate Workplace Hazards

Pesticide containers may begin to deteriorate over time. Damaged containers will result in a spill causing pesticide exposure to people and the environment. Avoid a costly clean up or pesticide related illness by removing and disposing of unwanted pesticide products. Do not purchase excessive quantities that must be stored for long periods of time.

Waste Pesticides

Unuseable, unwanted, and banned pesticides are waste pesticides. Banned pesticides such as chlordane and DDT have been disposed of through this program.

Acceptable products

- insecticides
- fungicides
- herbicides
- rodent baits
- other pesticides

Unacceptable Products

- batteries
- motor oil
- antifreeze
- paint
- cleansers
- any non-pesticide product
